

QuickBooks Online Sync with Verizon Connect Work

QuickBooks Online Sync helps field service admins stay up-to-date, organized and avoid double-entry of data.

What to know

The integration supports **Australia, Canada, UK** and **U.S.** versions, as well as one income account for invoicing. Choose to automatically sync your Clients between Work and QuickBooks, and push Invoices and Payments to QuickBooks.

What to do

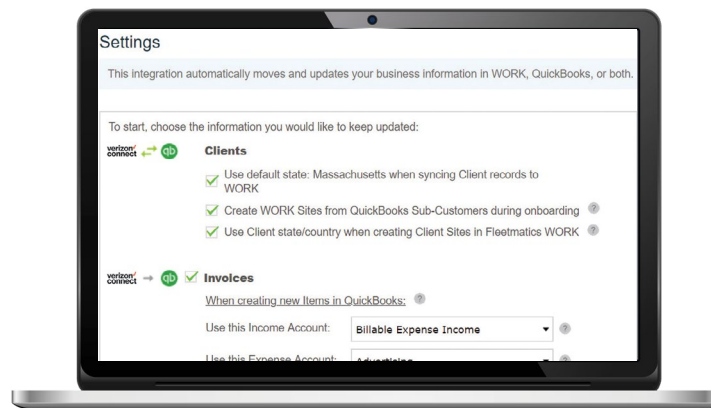

Begin by backing up your data, so you feel confident during setup. Here are a few details to review as you get ready:

- ☑ Confirm your QuickBooks version
- ☑ Get your QuickBooks admin login ready
- ☑ Review the fields that sync to QuickBooks
- ☑ Notify our team if you use QuickBooks sub-customers
- ☑ Choose accounts that your invoices, items and payments post to in QuickBooks

How to get started

Next, let our team guide you through the setup.

1. Connect to QuickBooks
2. Select the data you want to sync
3. Sync your data
